

# ***Annual Lunch Cruise to Vickery's at Shem Creek***

## ***Sunday February 24<sup>th</sup> 2019***

***Meet in the Restaurant at Noon, Cruise Captain Paul Wood  
Tables reserved in the name of Charleston Sail and Power / Paul Wood***

***We had a great turnout last year, make this event the start of your 2019 boating season!  
Or come by car if you don't like the weather.***

***By boat:*** High tide is at 11:41 am in the harbor. Enter the narrow Shem Creek channel between R "2" and G "1", come from the main Rebellion Reach channel in line with the first third of the Shem Creek channel, making about a 120 degree turn if outbound on Rebellion reach, don't be tempted to cut the corner as it is very shallow around R2 and G1 - then follow the red markers keeping fairly close to the boat docks coming from the shore, and turning in at Fl. R"16", there are range markers for the final approach. Moor at the concrete MP Town dock which is downstream of Vickery's, same side (port side going upstream). Walk inland on the boardwalk, then take a right at the fork, this will lead you to Vickery's.

The docks at Vickerys are all private so don't moor there.

***By car:*** Turn off Coleman Boulevard at Shrimp Boat Lane, on the Charleston side of the Shem Creek Bridge, Vickery's is no. 1313.

RSVP to let me, Paul Wood know if you plan to come by Sunday Feb 17<sup>th</sup>
